QUALITY & ENVIRONMENTAL POLICY

MKD Facilities Services

Our Quality Policy

Our policy is to provide an innovative and uncompromising standard of cleaning and associated building services, which are to be delivered to our clients in partnership with superior commercial practices at a competitive price.

We manage Quality management through continual reassessment of our goals and service aspirations, in the pursuit of excellence in facilities management, safety standards and environmental awareness.

Commitment to the recruitment and training of staff of the highest work ethic and ongoing dedication to their personal and professional growth, thereby ensuring the organisations continued development, success and prosperity.

These objectives are monitored and controlled through the implementation of our Quality Assurance Program currently in process of achieving.

This policy is issued to communicate the attitude of all MKD staff in their dedication and commitment to the development of a successful partnership with our customers.

Our Environmental Policy

MKD Facilities Services Pty Limited recognises its responsibility in environmental protection therefore promoting awareness is the focus of this policy.

This policy is to be used to develop staff awareness, knowledge, skill and capabilities of environmental management issues.

MKD is committed to understanding and minimising any adverse environmental impacts of our operations, whilst continuing to meet the expectations of customers and providing a safe working environment for our people.

Our objective is to achieve a sustainable balance between environmental protection and economic development that is in the interest of future generations that follow.
